

Name _____

The schwa is the unstressed vowel sound or syllable in a multi-syllabic word. All vowels can take the schwa sound.

Lesson 62: The Schwa

A word that has more than one syllable will often have an unstressed syllable or unstressed vowel sound called the *schwa*. The schwa is represented by an upside-down e (ə). The vowel *a* is often associated with the schwa sound if it acts as a word in a sentence (I have a dog) or if a word begins or ends with the spelling of *a* (agree, sofa). All vowels can take the schwa sound.

Prove and read the words below, using Decoding Skill 1 and the schwa. You may draw either boxes or lines to divide the syllables.

Examples:

ō	p	ə	n
x		x	

 ā | g ō

bacon

human

even

silent

adopt

private

label

sofa

neglect

agree

evil

final
